

## Testimonial References

- SSI provided valuable insight into the problems we had at numerous sites in Alabama. Many of those sites had repeated problems and the loss of revenue and equipment was a concern to us. SSI provided the solutions to these problems. I highly recommend their products (TVSS) and services to anyone that truly to sleep at night.

BellSouth Mobility

- Over the past thirteen years SSI has provided products and services for GTE. They have done what they said they would, address and taken care of our needs. Their integrity is to be commended. SSI is an invaluable source for products and services.

GTE Wireless

- Our site at La Mesa, Puerto Rico suffered damage each time lightning hit it. After many “experts” gave their opinions, we still had the same problems. SSI provided the answers to our problems. The site has since been hit at least three times and there has been no damage to our equipment or our customer’s. I highly recommend the products and services SSI has to offer.

Crown Castle International, PR

- SSI has provided products and services to ALLTEL Communications for the past six years. Their commitment to our success has earned them respect and trust in the industry. I recommend the products and services provided by SSI.

ALLTEL Communications, Inc.

- We have used products and technical services provided by SSI for several years. Their honesty and true desire to help is admired. Their knowledge of grounding issues and the TVSS industry has proven invaluable, starting with one of our first build-outs. I highly recommend their products and services.

Communications Management Specialists, Inc.
