Dear Keith,

It has been two years since we purchased and have installed surge suppression devices; both panel units and plug-in units, manufactured by Surge Suppression Incorporated at our administrative offices.

Not only have we not had to replace the switches that cost \$2500 that we were losing prior to the installation but also our pc equipment problems have gone away.

Thank you for informing us about the multi level protection and the sine wave tracking plug-in units.

Sincerely,

Gary Gaskill
