

Model: EACS

External Monitoring Module

The EACS module provides a compact, streamline packaging of the audible alarm, dry relay contact and surge counter options. For applications that require remotely connected advanced diagnostics, the EACS is the optimum solution. The EACS module has a 25 year free replacement warranty (does not include the battery).

- Audible Alarm:
 - Pulsed siren that sounds with the flashing red “trouble” LED.
 - High-intensity warble siren (110dB)
 - Ten-year rated (shelf life), replaceable, lithium based 9V battery
 - Circuit optimized to reduce battery power consumption when alarm condition is present
 - 72-hour continuous siren capability
 - 144-hour continuous “trouble” LED capability
- Surge Counter:
 - 8 digit display - counts to 99,999,999
 - Monitors all phases for surge events
 - Works independent of voltage
 - Counts only surges that the SPD acts upon
 - Solid-state, microprocessor based counter module
 - Reset button with “Disable” option
 - Switchable High Surge Counter feature
- Dry Relay Contact:
 - Normally closed contacts rated at 60W (from 30VDC @ 2 Amps to 150VDC @ 0.4 Amps) or 100 VA (from 50VAC @ 2 Amps to 220VAC @0.45 Amps) that accepts 16-22 AWG wire

Key Features

- Local & Remote Diagnostics
- 25 Year Unlimited Free Replacement Warranty (Except Battery)

Product Qualifications:

ISO 9001-2008 Certified Manufacturing Facility
